The use of the RIEGL terrestrial laser scanners, combined with RiSOLVE, is optimized for accident collision investigations. The state of the art hardware and software can be used to rapidly collect evidence at the scene of collisions, which helps to reduce the amount of time roads are closed, reduce lane closures, and minimize road congestion.

Human rights are moral principles or norms that describe certain standards of human behaviour and are regularly protected as natural and legal rights in municipal and international law. They are commonly understood as inalienable, fundamental rights "to which a person is inherently entitled simply because she or he is a human being" and which are "inherent in all human beings", regardless of ...
