How Europe Became an Economic Powerhouse. The European Union is a unified trade and monetary body of 28 member countries. It eliminates all border controls between members. That allows the free flow of goods and people, except for random spot checks for crime and drugs. The EU transmits state-of-the-art technologies to its members.

Preface - The European Union as an Effective Global Power? Ever since six European heads of state and government put their names under the Treaty of Rome in 1957, practitioners, theorists and observers of the European integration sought to define the nature and future of the institution that was to become the European Union (EU).
