Clouds are not spheres, mountains are not cones ... Nature exhibits not simply a higher degree but an altogether different level of complexity. - Benoît Mandelbröt, The Fractal Geometry of ...

Explainer: what is Chaos Theory? - The Conversation

Over 100 ingeniously constructed designs form dazzling optical illusions and geometric shapes, offering ample opportunities for imaginative and inventive coloring. This compilation consists of 4 volumes that are popular with colorists of all ages: Geometrical Design Coloring Book, Visual Illusions Coloring Book, Optical Illusions Coloring Book, and Dazzling Designs Color

Big Book of Geometric Designs and Illusions to Color

In mathematics, the Cantor set is a set of points lying on a single line segment that has a number of remarkable and deep properties. It was discovered in 1874 by Henry John Stephen Smith and introduced by German mathematician Georg Cantor in 1883.. Through consideration of this set, Cantor and others helped lay the foundations of modern point-set topology.

In audio engineering, electronics, physics, and many other fields, the color of noise refers to the power spectrum of a noise signal (a signal produced by a stochastic process). Different colors of noise have significantly different properties: for example, as audio signals they will sound different to human ears, and as images they will have a visibly different texture.

Facebook Puzzle Challenges Derrick Schneider: Facebook has taken a page from Google and set up a bunch of puzzles for aspiring programmer employees. But even if you don't want to work there, the puzzles are available for anyone to try. Some thought-provoking challenges in there that are -- obviously -- heavy on the "write a program to solve this" attitude.

Caroline Herschel and the fuzzy blobs. As telescopes got better, more and more faint fuzzy blobs, called "nebulae" could be seen. The French astronomer Charles Messier compiled a catalogue of these fuzzy blobs or "nebulae" so he could distinguish which fuzzy blob might be a new comet which was what he was interested in finding.
