

Great Flowering Landscape Shrubs

Great Flowering Landscape Shrubs

Many flowering shrubs attract birds with their berries and provide brilliant fall foliage. But these plants are perhaps at their best when in their bloom period when they can stand alone as specimens and serve as focal points in landscape design.

15 Great Flowering Shrubs for Your Landscape - The Spruce

The end of the long gray winter months is often announced not by spring bulbs, but by flowering trees and shrubs, such as dogwoods. The merit of these trees extends well past spring, however, because the flowers on many varieties give way to berries that draw wild birds.

Consider These Flowering Trees and Shrubs for Your Spring ...

In addition to all of those perks, small shrubs are generally easier to plant than most larger shrubs, too. One- to two-gallon-sized containers are the norm for dwarf flowering shrubs, so there's no need to wrestle with a massive balled-and-burlapped root ball or an enormous five-gallon container that weighs a hundred-plus pounds.

Dwarf Flowering Shrubs for Small Gardens and Landscapes

Discover 14 flowering shrubs that will bring season long color to your garden. Includes shrubs that flower as early as April or as late as September. From classic garden staples like rhododendron to more unique options like spirea, you're sure to find the right flowering shrub for your landscape.
