The March 1989 geomagnetic storm occurred as part of severe to extreme solar storms during early to mid March 1989, the most notable being a geomagnetic storm that struck Earth on March 13. This geomagnetic storm caused a nine-hour outage of Hydro-Québec's electricity transmission system. The onset time was exceptionally rapid. Other historically significant solar storms occurred later in 1989 ...

RELOCATION: Amongst the key attributes that expats and others moving to New Jersey look for when choosing a town to live in, is the presence of a great downtown. To put this into non-American parlance, this simply means municipalities or cities with a great town center area. What makes a great downtown though?. Opinions vary on this but some of the common descriptors you may find used include:
