Human resource management (HRM or HR) is the strategic approach to the effective management of people in an organization so that they help the business to gain a competitive advantage. It is designed to maximize employee performance in service of an employer's strategic objectives. [need quotation to verify] HR is primarily concerned with the management of people within organizations, focusing ...

Risks to patients, staff, and organizations are prevalent in healthcare. Thus, it is necessary for an organization to have qualified healthcare risk managers to assess, develop, implement, and monitor risk management plans with the goal of minimizing exposure. There are many priorities to a healthcare organization, such as finance, safety and most importantly, patient care.
