Horrible Science is a similar series of books to Horrible Histories, written by Nick Arnold (with the exception of *Evolve or Die*, which is written by Phil Gates), illustrated by Tony de Saulles and published in the UK and India by Scholastic. They are designed to get children interested in science by concentrating on the trivial, unusual, gory, or unpleasant.

Top 10 Child Stars Gone Bad^Top 10 Child Stars Gone Bad^We all love rags to riches stories, but it seems that people are almost as fond as riches to rags - or stardom to failure. This list looks at ten famous or successful child stars who went on to failure and, in at least one case, death. It is a well known fact that child stardom can often lead to disaster - perhaps due to the lack of ...

Definitions of "Science Fiction" And what do we even mean by "science fiction" anyway? In one sense, the first article to define the field was published over 150 years ago, before the field was widely acknowledged to exist: *New Species of Literature* "We learn that Mr. R. A. Locke, the ingenious author of the late 'Moon Story' or 'Astronomical Hoax,' is putting on the stocks the frame of a new ...

What Muslims do is the opposite: they have the "theory" that their Qur'an is Allah's direct word (which was revealed and passed on to Muhammad's mind, then dictated by him and written in the Qur'an), and then they try to find the data that — they think — support their theory. That's an entirely unscientific endeavor.

### **Science in the Qur'an? Surely you're joking, Mr. Muslim!**

Other spurious things. The old version of this site.; Discover a correlation: find new correlations.; Go to the next page of charts, and keep clicking "next" to get through all 30,000.; View the sources of every statistic in the book.; Or for something totally different, here is a pet project: When is the next time something cool will happen in space?
