

## *Photographic Lighting Equipment A Comprehensive Guide For Digital Photographers*

## Photographic Lighting Equipment A Comprehensive

Worldwide Paterson is best known for the high quality darkroom equipment it manufactures here in the UK. In the late 80s it also took over the manufacture of Benbo Tripods and has continued to develop this range of tripods, beloved by both Landscape and Natural History Photographers. Paterson has re-entered the Studio Lighting market with [...]

## Underwater Photography Techniques - DivePhotoGuide

A camera is an optical instrument to capture still images or to record moving images, which are stored in a physical medium such as in a digital system or on photographic film. A camera consists of a lens which focuses light from the scene, and a camera body which holds the image capture mechanism. The still image camera is the main instrument in the art of photography and captured images may ...

A theatre lighting designer (or LD) works with the director, choreographer, set designer, costume designer, and sound designer to create the lighting, atmosphere, and time of day for the production in response to the text, while keeping in mind issues of visibility, safety, and cost. The LD also works closely with the stage manager or show control programming, if show control systems are used ...

Correcting noise in patches with nonuniform illumination. Imatest calculations may deviate slightly from the  $N = \sigma(S)$  formulation because the patch used to measure noise may be unevenly illuminated, and this can result in an increase in measured  $N$  not actually caused by random noise itself. To account for this we calculate second order fits to the mean signal value in both the  $x$  and  $y$  ...
