### **Scientism Wiki**

Scientism is an ideology that promotes science as the purportedly objective means by which society should determine normative and epistemological values. The term scientism is generally used critically, pointing to the cosmetic application of science in unwarranted situations not amenable to application of the scientific method or similar scientific standards.

Technocracy is a proposed system of governance in which decision-makers are selected on the basis of their expertise in a given area of responsibility, particularly with regard to scientific or technical knowledge. This system explicitly contrasts with the notion that elected representatives should be the primary decision-makers in government, though it does not necessarily imply eliminating ...

Storia. Nella storia della filosofia, lo scientismo nasce in Francia nella seconda metà dell'Ottocento, da una costola del Positivismo, sia come termine che come concetto, per indicare l'atteggiamento intellettuale in base a cui il sapere scientifico deve essere a fondamento di tutta la conoscenza in qualunque dominio, anche in etica e in politica.. Per estensione, è una posizione filosofica ...
