### **Smart Antennas Electrical Engineering Applied**

This is a new course offering by the Dept of E & E Eng, in response to worldwide evolutionary processes in the electrical energy domain. These are seen to be technologically very exciting, but will also have considerable impact on conventional networks, in the near to medium future.

Journal of Electrical and Electronic Engineering (JEEE) , a peer-reviewed open access journal published bimonthly in English-language, aims to foster a wider academic interest in electrical and electronics engineering, including its intersection with physics. The journal publishes original research papers, with emphasis on theoretical and experimental work.

American Journal of Electromagnetics and Applications (AJEA) provides a forum for sharing timely and up-to-date publication of scientific research and review articles. The journal publishes original full-length research papers in all areas related to electromagnetics and its applications. It aims to contribute to intersciences coupling applied electromagnetics, mechanics and materials.

Prof C H Chan, Chair Professor of EE, has been selected to receive the 2019 IEEE AP-S Harrington-Mittra Computational Electromagnetics Award. The citation for this award is "For fundamental contributions to fast solutions of integral equations using FFT with applications to scattering, antennas and interconnect structures in homogeneous and layered medium".

In radio engineering, an antenna is the interface between radio waves propagating through space and electric currents moving in metal conductors, used with a transmitter or receiver. In transmission, a radio transmitter supplies an electric current to the antenna's terminals, and the antenna radiates the energy from the current as electromagnetic waves (radio waves).

Colorado School of Mines is a research university long known for its excellent academic programs in engineering and applied science, and its specialized and focused mission to enhance understanding of the earth, energy and the environment — Mines is helping find answers to some of the major problems of our time.

### **Degrees, Minors and Certificates - Academics**

This course will teach you about all aspects of electrical and electronic engineering, with a focus on engineering mathematics, programming and practical skills as well as the fundamentals of electrical, electronics and energy systems.
