: National Eczema Society

Is a bath or shower better for my eczema? Water is an effective way to put moisture back into the skin, but only if you use lukewarm water, avoid scrubbing and apply a moisturizer within three minutes after bathing or showering.

Bathing and Eczema | National Eczema Association

Eczema is a term for several different types of skin swelling. Eczema is also called dermatitis. Most types cause dry, itchy skin and rashes on the face, inside the elbows and behind the knees, and on the hands and feet. Scratching the skin can cause it to turn red, and to swell and itch even more.
