Motor imagery is a mental process by which an individual rehearses or simulates a given action. It is widely used in sport training as mental practice of action, neurological rehabilitation, and has also been employed as a research paradigm in cognitive neuroscience and cognitive psychology to investigate the content and the structure of covert processes (i.e., unconscious) that precede the ...

Innovation Network | Transforming Evaluation For Social Change

Minor key signatures. Here is a slightly modified excerpt from my book Essential Music Theory Volume 1: Learn To Read And Appreciate Music.. Each minor scale has a relative major, like a cousin! A relative minor has the same key signature as the major of which it is a relative.

Minor Key Signature - Essential Music Theory

The only things you can't see here that are available in the original visualization on GE's website are the names of the countries (one per square) that appear only as you hover over them. What we see here looks like an oddly designed version of a treemap, with only one dimension of data (the relative sizes of the squares, which in this case represent the amounts of natural gas left per ...

Visual Business Intelligence - Does GE Think We're Stupid?

Pump gas molecules to a box and see what happens as you change the volume, add or remove heat, change gravity, and more. Measure the temperature and pressure, and discover how the properties of the gas vary in relation to each other.
